

## TECHNICAL DATA

**MOTOR:** 1500 W  
**BATTERY:** 1 x 24V 360Ah  
**TRACK X (MM):**  
 Standard 1130  
 Special 1180  
 Special 1230  
**TRACK Y (MM):**  
 Standard 360  
 Special 310  
 Special 260  
**SPEED:** 6 km/h variabel  
**WEIGHT:** 916 kg  
**DRIVE WHEEL DIAMETER:**  
 255 mm  
**FRONT WHEEL DIAMETER:**  
 Standard 85 mm  
 Special 70 mm  
 Special 100 mm  
**LOADING TIME:** Ca 5s  
**WORKING TIME:**  
 6 h continuous operation

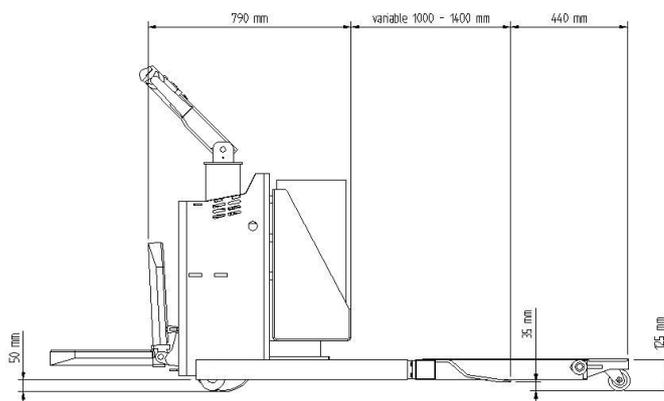

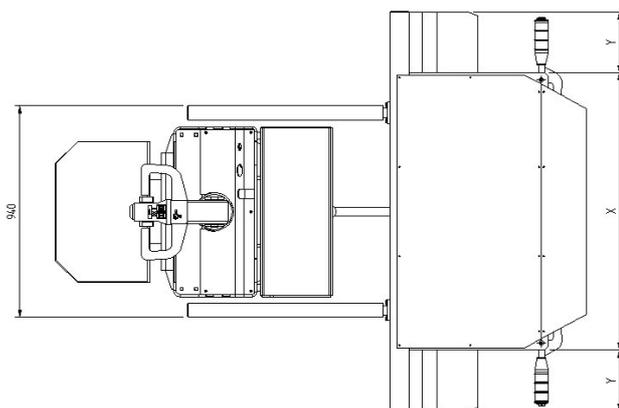

**Stringo 550** an extra powerful model, especially suitable for large and heavy vehicles up to 5000 kg or where daily transportation or movement of a large number of vehicles is required. The Stringo 550 is available in various motor sizes and track widths.

Stringo 550 is similar to the other models, quick and easy handling even in restricted spaces.

**Area of use:** Especially suitable for the Motor Industry, like in design studios, or where daily transportation or movement of a large number of heavy vehicles is required.

- Effortless operation
- Silent and clean
- Double safety system
- Minimum turning radius  
the length of the car plus 80 cm
- Can be engaged on the front or rear wheels of the vehicle
- Hydraulic pressarms
- Length hydraulic adjustable
- Ride-on-platform, battery indication and hour meter are standard
- Re-chargeable truck battery
- Can be equipped with various accessories
- Adaptation to customer's needs

# STRINGO 550

## STRINGO -

**MAKES VEHICLE  
MOVEMENT EASY**

**PATENTED**

With Stringo the movement of vehicles indoors becomes easy and secure.

The unique design and construction is simple, effective and efficient, even in the most cramped spaces. Vehicles are moved noiselessly, with ease and with precision. Non polluting Stringo takes the heavy work out of vehicle movement at the same time improving the environment of the workplace.
